Bibliography / Bibliographic List: how to make?

- The Bibliography is placed **at the end of the text** of the scientific work.
- The following methods of grouping bibliographic records are allowed:
 - **alphabetical** (all bibliographic records are arranged alphabetically by the names of authors or the first words of document titles. Bibliographic records of the works of authors with the same name are placed in the alphabet of their initials)
 - **systematic** (all bibliographic records are arranged in a certain logical sequence in accordance with the accepted classification system)
 - **chronological** (all bibliographic records are placed in the chronology of the publication of documents)
- The Bibliographic List may contain bibliographic records in different languages. In this case, first place records in Russian, then the records in the Latin script (English, French, German), then in the languages using hieroglyphs (Chinese, Japanese, Korean).
- We recommend you transliterate into English sources in Chinese and other languages, that use hieroglyphs.
- All bibliographic records in Bibliographic List must be numbered.
